Trouser measurements

GARMENT MEASUREMENT GUIDE

Measure a well-fitting garment laid flat. Follow the numbered photographs.

CLIENT NAME

UNITS (IN / CM)

01 Half Waist

Measure straight across the waistband from one side to the other.

MEASUREMENT

02 Half Hips

Smooth out any wrinkles and measure across the fullest part of the hips, from left to right.

MEASUREMENT

03 Front Rise

Measure from the crotch seam up to the top edge of the front waistband.

MEASUREMENT

04 Back Rise

Measure from the back crotch seam up to the top edge of the back waistband.

MEASUREMENT

05 Outseam Pants Length

Measure the distance from top of waistband to bottom of the hem.

MEASUREMENT

06 Inseam

Measure from the crotch seam (where the front and back seams meet) to the bottom of the leg - adjust based on whether the trousers are intended to cover the shoes or boots.

MEASUREMENT

07 Half Thigh

At the crotch level, measure straight across the thigh from one side to the other, parallel to the waistband.

MEASUREMENT

08 Half Knee

Measure straight across at the knee level, approximately 13 inches (33 cm) down from the crotch.

MEASUREMENT

09 Half Hem

Measure across the bottom hem from one side to the other.
